Kakuro #1

He writes his plays for the ages — the ages between five and twelve.
— George Jean Nathan

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of “across” words, and on the top and bottom sides of “down” words.

Scheduled changes always mean cutbacks. (Minor schedule adjustments always affect your last trip, but you’re a good sport.)

--- Steve Ross
