Kakuro #1
10x10 Insane Kakuro Puzzles by KrazyDad, Volume 6, Book 55

Most people wouldn’t know music if it came up and bit them on the ass.
-- Frank Zappa

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.

When working toward the solution of a problem it always helps if you know the answer (provided, of course, you know there is a problem).

Kakuro puzzles are like a cross between a crossword and a Sudoku puzzle. Instead of letters, each block contains the digits 1 through 9. The same digit will never repeat within a word. If you add the digits in a word, the sum will be the number shown in the clue. Clues are shown on the left and right sides of "across" words, and on the top and bottom sides of "down" words.
