*The value of money has an objective regulator only when it is linked to a real commodity, like gold, itself requiring the cost of human labor to be produced. By comparison, the value of inconvertible paper money has no objective regulator, its marginal cost of production being nearly zero.*

*Every organization is self-perpetuating. Don't ever ask an outfit to justify itself, or you'll be covered with facts, figures and fancy. The criterion should rather be, "What will happen if the outfit stops doing what it's doing?" The value of an organization is easier determined this way.*
